

## The Construction Suicide Prevention Partnership

The construction industry is facing a crisis in mental health and substance abuse. Suicide claims six times more construction workers than workplace accidents, making it the second-highest suicide rate among U.S. industries.

It's time to make mental health a cornerstone of job site safety. The Construction Suicide Prevention Partnership (CSPP) unites industry leaders and mental health experts to reduce suicide rates, promote workforce well-being, and save lives.

The CSPP is a collaboration between construction leaders and Lines for Life, a leading national suicide prevention nonprofit. When you join the CSPP, you invest in consulting, training, crisis intervention, and other suicide and addiction prevention services that are thousands of dollars more expensive when delivered by for-profit agencies.

## Addressing the Root Cause

The construction industry has long struggled with high rates of alcohol abuse and drug misuse. Combine that with job-related stress and tough-it-out work culture, and we have a mental health crisis playing out on our sites.

We know the convergence of workplace hazards, substance misuse, and mental health challenges puts everyone at risk—a distracted partner can be dangerous. CSPP provides **proven, practical, and easy-to-implement** tools to create **safer, healthier** job sites and employees.

## Annual Membership Levels

Members join at the level reflecting your organization's capacity to support the high-impact services and mental health consulting and support that the CSPP delivers.

- **Platinum: \$15,000**
- **Gold: \$10,000**
- **Silver: \$5,000**
- **Bronze: \$2,500**
- **Member: \$1,000**

CSPP is a service of Lines for Life. Lines for Life is a nonprofit;  
membership donations can be tax-deductible.  
Our EIN is 93-0725294.
